

Frightfully smart jack-o'-lanterns

TIP 1

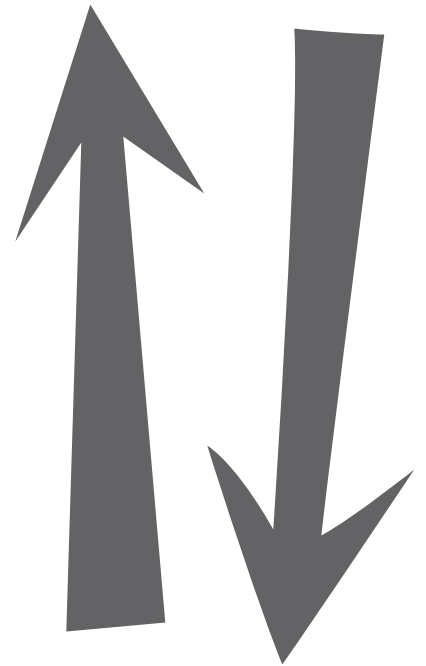

Start with the small pieces first, especially those in the center.

TIP 2

Jack-o'-lanterns will last only a few days, so don't carve too early!

TIP 3

Position of up and down arrows may need adjusting for your pumpkin. Keep together as a pair.

INSTRUCTIONS **1** Select pumpkin. **2** Scale template for pumpkin using printer settings and print. **3** Cut out shaded areas from print-out. **4** Attach print-out to pumpkin. **5** Trace cut-out areas. **6** Carve your pumpkin!

Werewolfgang Pauli

Wolfgang Pauli (1900–1958) made many contributions to the field of quantum mechanics. He also predicted the existence of the neutrino, a particle that is particularly difficult to detect.
